INSIGHTS FROM SNAP-ON CLIMATE SOLUTIONS SRL

@ PERIODICAL NEWS EDITION – THE INFORMATION DRIVEN BUSINESS SUPPORT

2022 JULY

Information supported Customer Connection

Constantly updated information flow is undeletable for a good customer connection. With the desire to better share relevant and valuable information with our network of customers and colleagues, Snap-on Climate Solutions starts with a periodical edition of Newsletters.

Information is not just part of competent know how, but enables deeper connection due to storytelling as a fundamental human experience. Storytelling unites people and drives stronger connections, highly meaningful in any business relationship.

We do not sell just products, we pay attention on relationships done by stories building up our brands and help our partners to engage consumers in a fragmented media world.

Restart for the automotive aftermarket: experience innovations from international key players and learn more about new technologies and trends at the international meeting place for the manufacturing industry, repair shops and automotive trade. Like no other trade fair, it represents the entire value chain of the automotive aftermarket. Automechanika Frankfurt will be held in its familiar format as the world's leading trade fair from **13 to 17 September 2022**.

On the occasion of next fair edition Automechanika in Frankfurt, Snap-on will exhibit in a great booth «**Total Shop Solutions**» to present all brands of the group together.

We're pleased to meet you and kindly invite you to fix your personal meeting date in **Hall 8, Booth A96**.

MAZDA COLOMBIA Elected ECK NEXT PRO Patented hybrid function as the best solution for electric vehicles

We are pleased to announce that Mazda Colombia has elected Snap-on Equipment and our **ECK NEXT PRO** with the integrated hybrid function as the sole supplier for their AC maintenance; these

are aimed to service their new **MAZDA MX-30 electric vehicles** being imported starting next November and equipped with HFO1234yf A/C system. Mazda engineers focused attention especially on Ecotechnics' integrated hybrid function (real loop), considered the best solution for their local needs.

The **patented** Ecotechnics system automatically carries out the washing of service hoses and internal ducts, thanks to the specific software and connectors integrated in the station. A closed-circuit washing cycle enables highest cleaning efficiency.

Mazda Colombia is the third largest company in sales, with their Mazda 2 being the number one vehicle sold in 2021; they currently have 18 dealers with 37 shops spread throughout Colombia.

New Software Version 1.17 ECK TWIN 12 MODELS

TECHNICAL BULLETIN

(Boletino tecnico / Bulletin technique / Technisches Merkblatt)

HIGHLIGHT 20/2022

The recent software update 20/2022 implemented a highly **appreciated**

optimization on ECK TWIN 12 and Dual Gas 12: the choice of filling type.

The conclusion of the recharge phase of any automatic or manual A/C Service can take place by two different methods: the **CAR-method** (Compressor assisted recharge) or the **automatic compensation of the service hose length** (Ecotechnics patented solution).

Both methods offer advantages and each technician has their own preferences. The new software update offers the possibility to **define the preferred filling type in the option menu**.

Sun Koolkare's success in Latin Amerika: Autopar in Brazil is on one of the most visible fairs

AUTOPAR In two decades and 10 editions, AUTOPAR has projected itself as an event of international

scope, both in terms of the exhibitor universe, which today has more than 500 brands spread over 30 thousand m² of covered area, and in terms of visitation, which exceeds 50 thousand pro-fessionals, from all Brazilian states and 15 other countries.

Snap-on caught the opportunity to highlight the Sun brand and it's Air Conditioning program Koolkare. In focus of interest and attraction have been QTechIV and BreezeIV.
