2023 MAY

Information supported Customer Connection

Constantly updated information flow is undeletable for a good customer connection. With the desire to better share relevant and valuable information with our network of customers and colleagues, Snap-on Climate Solutions is proud to publish the monthly editions of its newsletter.

Information is not just part of competent know how, but enables deeper connection due to storytelling as a fundamental human experience. Storytelling unites people and drives stronger connections, highly meaningful in any business relationship.

We do not sell just products, we pay attention on relationships done by stories building up our brands and help our partners to engage consumers in a fragmented media world.

GLOBAL, SINGLE AND DUAL ECK TWIN 12 - Among most Valued Productivity Solution in Asia

Snap-on Tools Pvt. Ltd, **India** established in the year 2004, is wholly owned subsidiary of Snap-on Incorporated, USA. SNAP-ON, engaged in the business of bulk imports with exports / ex-bonded warehouse sales on cash & carry whole sale trading of high tech item/s including products manufactured by Snap-on Incorporated, USA and its affiliates, under various internationally known brands.

In air conditioning program among best sellers is the **Ecotechnics ECK TWIN 12** as the complete solution for R134a and HFO. This high-end premium station offers the best possible and efficient solutions to all workshop needs: the integrated, patented Hybrid function, the option of the Gas Analyser, the Nitrogen feature for professional leak detection up to the highly efficient flushing system for the cleaning of A/C systems and their components.

FLUSHING IN FOCUS

Flushing-Kit **AEK102-N21** is the most efficient solution for the cleaning of an A/C system and its components: fast, ecological and automatic.

Tesla service center in Pudong, Shanghai recommends the Ecotechnics A/C station combined with the Flushing Kit.

Looking for most competent solutions, workshops IAM and OEM are mainly attracted not only by the equipment and its features itself, but also by the skillful combination with service accessories.

Snap-on Climate Solutions pays highest attention on most efficient productivity solutions and for all standard or optional features are available suitable solutions and efficient accessories. Actually it's especially the Flushing solution of the company to attract actively interest all over the world. For more information please remember the new tutorial video lesson on the Flushing Kit available on our YouTube channel [click here](#) (link works in pdf only)

Mitsubishi technical centre, and SGMW centre, Indonesia

VISUAL INSPECTION DIAGNOSIS SIGHTGLASS

The visual inspection of the refrigerant should be the first step in every air conditioning service.

The **DIAGNOSIS SIGHTGLASS** is a perfect and quick solution to determine the quality of a refrigerant. The refrigerant flows through the transparent sight glass, allowing its quality to be observed and assessed: transparency indicates good quality, while the presence of tracer, impurities, residues or any moisture can also be checked.

For more information see **AEK232** actual catalogue 2023 on page 27 (for catalogue download [click here](#)).
