## The 37th AUTO SERVICE SHOW 2023

Japan's largest demonstration and exhibition of automobile machinery and tools  
Thursday, June 15 - Saturday, June 17, 2023

The first "Automobile machinery and tools demonstration and exhibition" was held in 1948. From 1973, the event has been called the Auto Service Show.

The show is held every two years at Tokyo Big Sight, showcasing auto maintenance and inspection equipment from Japan and abroad. It's an opportunity for exhibitors to introduce their new products and promote high-quality machinery.

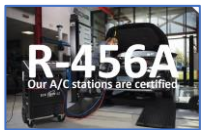

Highly attractive product categories and main interesting customer reaction in workshop equipment have been ADAS, wheel aligners and air conditioning. Among mainplayers Snap-on product presentations of Hofmann **Monthly 8800**, **Geodyna 7800-2P** and Ecotechnics **ECK TWIN 12**.

ECK TWIN 12

Geodyna 7800-2P

Monthly 8800

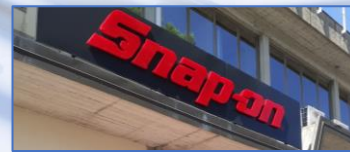

## Certification New refrigerant

According to recent market trends, we are pleased to inform that our A/C stations are certified for the new R-456A refrigerant.

R-456A refrigerant was developed as an alternative to R-134a and is a blend of HFO and HFC, composed of R32 + R1234ze + R134a. The main advantages are both the lower cost and greater environmental protection due to the lower global warm potential (GWP) of 687 instead of 1,430.

## Optimized Snap-on brand visibility in Sesto Fiorentino

#snap-on proud

New Snap-on logo signs have been installed and now proudly represent the renovated headquarters of Snap-on Climate Solutions in Sesto Fiorentino.

## AUTOZUM<sup>®</sup> SALZBURG

## DER AUTOMOTIVE AFTERSALES MARKET 2023 June 20 - 23

PDL 7100

PDL 8100

Every two years the Autozum provides a unique goods and services showcase for car parts, workshop tools, fixtures and fittings, fuel station equipment and requirements, car washing, car accessories and tuning. Moreover, it is the top commercial gathering for the automotive aftersales sectors and guarantees optimum conditions for the initiation of business relationships, cultivation of contacts and for networking purposes.

Highly attractive product categories and main interesting customer reaction in workshop equipment have been specific Highlights:

- **Show commercial vehicles:** The main networking-platform for after-market professionals in the segment of light and heavy commercial vehicle.
- **Future Mobility Area:** The Future Mobility Area is a Focus Area for future mobility & Evalus Safety Days.
- **Workshop of the future:** The workshop of the future is a representation of a networked workshop that maps the entire process chain.

Among the product categories in workshop equipment, some Snap-on highlights were among the main players. Especially diagnostic, wheel aligners and air conditioning products have attracted the attention of public and journalists.

Main Snap-on's highlights

1. **Ecotechnics** A/C stations ECK FLAG, ECK NEXT PRO and ECK TWIN 12
