2023 OCTOBER

Der führende Spezialist
Kastner

Kastner Open Day 2023 October 13th – 14th Feldkirchen / Graz

On the occasion of the opening event in the new site of Autobedarf Kastner in Graz, company, suppliers, staff and customers met in the new building. Face to face meetings and knowledge share among professionals gave opportunity to update information and get insights on the product and service range of Kastner.

Kastner is a mainplayer among Snap-on's distribution partners and leading point of reference in their Austrian market for spareparts, equipment and service. During the event in Graz, the focus range of A/C Stations was the ECK NEXT PRO, ECK FLAG and ECK TWIN 12. Each machine is appreciated for the settings of technical features:

- **ECK NEXT Pro** – the flexible solution for the workshop. Future oriented features are optional and can be implemented on request.
- **ECK FLAG** – the future oriented experience. The holistic high-end solution for current requirements as for new hybrid and electric vehicles.
- **ECK TWIN 12** – the complete solution to handle with more refrigerants. A premium machine equipped with most modern features as a standard.

AAG.ROADSHOW 2023

From march across Germany

Exchange of know-how from professional to professional. Any roadshow offers the opportunity to show everything a modern vehicle workshop needs. Classic spare parts are presented as well as the most modern workshop technology and hand tools. The AAG.Roadshow provides information about future-proof workshop concepts and system partnerships.

Highlights of Workshop Service Equipment selected products Primetool branded. Once again the interest in premium A/C air conditioning units was confirmed. Especially the features pressure test, gas analysis, flushing, hybrid and automatic oil management with hermetic containers are among most appreciated and required features.

Further to the main AAG Fair in Münster in October, AAG Germany's exhibitions have been organized in the AAG.ROADSHOW format in Hamburg, Cologne, Berlin, Speyer and Nuremberg.

ATF GEARKARE - close to the workshop

On recent fair edition in Reus Convention Center (Tarragona) has been held VIII Jornada de Tallers. Snap-on caught the opportunity to bring workshops together with the ATF GEARKARE.

VIII Jornada de Tallers
Reus, 15-16 setembre 2023 >>>
Transformació en marxa

Aicrag recovered its fair for repair professionals, which coincided with its VIII Workshop Day. It was the venue again, the Reus Convention Center (Tarragona), and as a starting point this Expo Aicrag 2023 exhibited its strength with the direct participation of more than 80 supplier companies.

On the afternoon of Friday, September 15, when Sandra Guaita, mayor of Reus, and Agustín García, general director of Aicrag, officially inaugurated Expo Aicrag 2023, the incessant and abundant rain that was present in the provinces of Barcelona and Tarragona, got everyone wet without any impact on optimism and efficiency of meeting specialists, professionals with new products.

For Snap-on it was a further opportunity to meet and involve workshops in detailed product presentations and demonstrations of the new ATF product category.

2023 OCTOBER

Lyon, the “automotive capital” of Europe

An exceptional, UNESCO World Heritage listed city, Lyon is also the capital of a French region, Auvergne Rhône-Alpes (AuRA), which entertains longstanding ties with the automotive industry.

It is the ambitious challenge that we set ourselves with the Lyon Motor Show: for a few days at the end of September, the whole automotive industry has been presented in more than 75,000 sqm at Eurexpo Lyon. This Lyon edition confirms the international standing of EQUIP AUTO. This success is also borne out in figures: with an initial target of 400 exhibitors, the show has finally attracted more than 550!

Snap-on Climate Solutions participated with a distribution partner. Mainplayer of Ecotechnics brand was the ATF Moovetech. Ecotechnics opened a new dimension in this station for automatic transmission cleaning and oil replacement. High interest also on the A/C Station ECK TWIN 12 and the mobile station ECK LAND.

The world of the after market car and beyond

AUTOTEC EXPO 2023

29.09 – 1.10 Metropolitan Expo, Athens

The institutional exhibition for the after market of passenger and truck cars returns more dynamically than ever to the “Metropolitan Expo”.

The AUTOTEC expo is an event, the industry exhibition station for the automotive aftermarket, and took place from September 29 to October 1 2023 at the Metropolitan Expo, the largest and most modern exhibition center in Greece.

After the great success of the last event with the participation of the most important companies with more than 600 brands and the attraction of approximately 18,000 visitors, AUTOTEC expo 2023 raises the bar even higher.

In the context of AUTOTEC expo 2023, the most important companies trading in spare parts, equipment and workshop services have been hosted.

Snap-on Climate Solutions is proud that its distribution partners took the opportunity to present a selection of Ecotechnics Workshop Service Equipment. In focus the A/C Stations ECK NEXT and the premium station ECK FLAG. Much interest was attracted by ATF Moovetech, exhibited for the first time at the fair in Greece. An upcoming new need in workshops business and meaningful area of growth.

LKQ // STAHLGRUBER

LKQ Stahlgruber Exhibition Nuremberg

Successful conclusion of the trade fair year

100
JAHRE
STAHLGRUBER

Premium A/C Service equipment in Focus

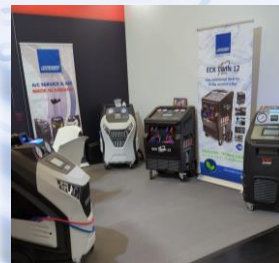

After Munich and Leipzig, the last LKQ Stahlgruber exhibition of this year took place in Nuremberg. At the in-house trade fair format, more than 150 exhibitors showed their products and solutions for independent workshops on around 15,000 square meters, LKQ reported.

According to the report, the focus of the trade fair included workshop equipment, innovations in e-mobility, the paint center and modern workshop solutions, such as workshop concepts, digital tools and training.

Workshop's service equipment in focus of Snap-on has been again the interest in high-end Air conditioning service equipment ECK FLAG and ECK TWIN 12 as a holistic high-end solution to meet current requirements of workshops in professional A/C Service for existing vehicles and new hybrid and electric vehicles.

The dates for the LKQ DACH trade fair year 2024 have already been set:

- 09-10 March LKQ Stahlgruber exhibition in Leipzig
- March 16-17 LKQ Stahlgruber exhibition in Munich
- May 25-26 LKQ PV LIVE in Essen
- Sept. 27-28 LKQ RHIAG Switzerland in-house exhibition in Langenthal
- Nov. 23-24 LKQ Stahlgruber exhibition in Nuremberg
