INSIGHTS FROM SNAP-ON CLIMATE SOLUTIONS SRL

@ PERIODICAL NEWS EDITION – THE INFORMATION DRIVEN BUSINESS SUPPORT

2023 DECEMBER

2023 NOVEMBER 16-18
BOLOGNA, ITALY

Futur motive Expo & Talks, the 2023 event dedicated to technology and energy transition. Autopromotec organized Futur motive – Expo & Talks in the Bologna Exhibition Centre from 16 to 18 November 2023. The event was a focus on the challenges of the energy and ecological transition and new business models in the Automotive sector.

Exhibitions, dedicated conferences and high-profile networking

Further to conferences with a scientific committee working on issues related to energy transition and innovation in the automotive sector has been held a true exhibition dedicated to all businesses and networking with high-profile international buyers.

Focus and main trends presented

The exposition of workshop equipment clearly highlighted the most actual trend as the maintenance of electric and hybrid mobility, digital technical support and remote diagnosis, battery repair and maintenance and equipment for the work of high voltage systems.

Snap-on caught the opportunity to meet visitors

A selection of Snap-on equipment has been presented on the Total Shop Solution stand in Hall 19. In line with the focus issue of the event, highest interest has been attracted by the complete ADAS solution Tru-Point of John Bean (www.johnbean.com), the A/C maintenance for electric and hybrid mobility with Ecotechnics A/C Stations and the maintenance of automatic transmission with the new ATF Moovetech (www.ecotechnics.com).

We wish all our friends,
colleagues, partners, customers
and daily heroes, all the best for
the new year

VISUAL INSPECTION DIAGNOSIS SIGHTGLASS

The visual inspection of the refrigerant should be the first step in every air conditioning service.

The DIAGNOSIS SIGHTGLASS is a perfect and quick solution to determine the quality of a refrigerant. The refrigerant flows through the transparent sight glass, allowing its quality to be observed and assessed: transparency indicates good quality, while the presence of tracer, impurities, residues or any moisture can also be checked.
