@ PERIODICAL NEWS EDITION – THE INFORMATION DRIVEN BUSINESS SUPPORT

2024 FEBRUARY

CATALOGUE 2024

“The workers in the workshop are the ‘daily heroes’ who make things work. The company puts them first, listening carefully to their needs and striving to offer always the most efficient and friendly solutions.”

Snap-on Climate Solutions is pleased to present the new Ecotechnics catalogue 2024.

The representative scenography of blue and red smoke associates to the air conditioning roots of the brand (hot and cold) further to the recent diversification A/C and ATF.

All stations are displayed inside the workshop. Station and details are highlighted while synthetic description of technical specification allow fast and complete information and comprehension. Standard features and options are represented also by icons.

The catalogue includes both air conditioning products and the new program of ATF **MOOVETECH**.

Please have a look on-line on our homepage www.ecotechnics.com where you'll find the pdf download in 6 languages. For requests of printed catalogues, please keep in touch with our Sales office.

VISUAL INSPECTION DIAGNOSIS SIGHTGLASS

- Visual inspection of the refrigerant on the vehicle by running air conditioning system
- Visual inspection of the refrigerant when filling AC stations
- Use as a protective filter for AC stations in unsafe vehicle AC systems
- Ensure result of a flushing process

The visual inspection of the refrigerant should be the first step in every air conditioning service.

The DIAGNOSIS SIGHTGLASS is a perfect and quick solution to determine the quality of a refrigerant. The refrigerant flows through the transparent sight glass, allowing its quality to be observed and assessed: transparency indicates good quality, while the presence of tracer, impurities, residues or any moisture can also be checked.

For more information see AEK232 actual catalogue 2024 on page 5 and 27.
