@ PERIODICAL NEWS EDITION – THE INFORMATION DRIVEN BUSINESS SUPPORT

2024 APRIL

Safety comes first SAFETY PHILOSOPHY

Snap-on remains committed to non-negotiable product and workplace safety. As a permanent and priority agenda item at all operational meetings, safety comes first in our company. Our products are engineered for safe operation, we initiate and maintain a safe workplace, and we diligently comply with the company's safety programs. Regular update Training sessions ensure people are prepared in BLS (Basic Life Support). A specific training session BLSD including defibrillation in case of cardiac arrest has recently been held in SCS.

COMPLETELY AUTOMATIC WORKFLOW 2024

The Database update 2024 is available.

Only an updated database enables completely automatic workflow of the A/C station and avoids time-wasting research for refrigerant quantities. The new database is updated with most recent new models and updated information. The complete list of vehicles included in the 2024 database is available in AC-Servic24

TIME SAVING

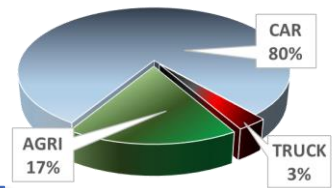

UPDATED A/C STATIONS

GOOD MAINTENANCE SERVICE FOR THE WORKSHOP

RELIABLE A/C SERVICE DURING THE SEASON

5.396 models / 99 manufacturers

The information flyer gives an overview with detailed profile description of the DB.AUTOAGRI database 2024.

Snap-on's passion for Customer Connection

Keep it personal

The passion for customer connection shan't miss personal meetings. The endless number of sales events give the opportunity to meet and connect, to share professional knowledge and find out best solutions on workshop needs.

Keep it professional

There're more than 70 sales events among international and national fairs, regional and local events up to sales events "open doors" of our distributors. It's a priority to ensure efficient sales support due to professional organization of any sales event:

Take part in the AUTOMOTIVE TECHNOLOGY FAIR!

Snap-on catches the occasion to meet its colleagues, partners and, especially, workshops and their daily heroes. This is the most efficient way to align manufacturers with the needs in a workshop. Product presentations carried out directly by product specialists represent the best way to recommend the most suitable product for workshop's needs. Professional advice makes happy end-users.

TTM Automotive Technology Fair in Poznan.

Automotive Technology Fair is the largest and most important event in this part of Europe addressed to owners and employees of car garages (mechanics and electricians), vehicle service and inspection stations, car washes, appraisers and diagnostics, shops and wholesalers of parts and equipment for workshops, commissions and rentals, vehicle fleet managers, transport companies and everyone who needs specialized automotive technology equipment in their daily work.

SCS is proud of the great interest of all visitors attracted by the main players in Air conditioning Service Stations and ATF of Ecotechnics and Sun brand. Thanks to visitors, partners and colleagues.
