2024 DECEMBER

## REPARASUL

Feira de Autopeças e  
Reparação Automotiva

## HIGH SEASON IN BRAZIL

The 6th edition of REPARASUL took place on November 20, 21, 22 and 23, 2024 at the Fenac pavilions in Novo Hamburgo/RS in the southern part of Brazil

**TSS TOTAL SHOP SOLUTIONS**

### About Reparasul

REPARASUL meets the needs of the automotive repair equipment and spare parts sector, generating business and relationships aimed at the entire industry chain involving manufacturers, distributors and retailers of auto parts, and suppliers of equipment and services. The exposition of more than 30,000 m<sup>2</sup> area it held in Av. Nações Unidas, 3825 - Bairro Ideal - Novo Hamburgo/RS.

### For Snap-on a great opportunity to meet our Brazil and LATAM Partners

The Exposition focused highly useful updates, presentations and training. Among priorities are Sales / Tech updates, diagnostic products of Sun brand ADAS/PDL, ATF program and, of course, equipment for maintenance and repair of air conditioning systems.

Appreciated meetings to update our partners on the extraordinary optimization process implemented on Snap-on's ATF station: Best software, best hardware and widest range of adapters keep Snap-on's ATF program on highest efficiency level of marketability. Now complete also with connectivity support tools and mobile ATF mobile APP.

Attraction of interest have been the appreciated and well-known performances of the A/C Stations QTechIV, BreezeIV, DUAL GAS 12 and the HD-S specific station for big systems as installed in trains or buses.

## ATF MOBILE APP

Be always ATF-connected  
*Wherever you are!*

iOS Android

1. Be always informed: real time of your ATF stations
2. Keep research for suitable ATF adapters smart

## CO<sub>2</sub> - R744

THE FUTURE ORIENTED REFRIGERANT R744

Increased awareness of environmental protection, cost-effectiveness and the efficiency that can be achieved with the properties of R744 refrigerant are further encouraging as a long-term and future-oriented solution in the premium vehicle sector.

A growing number of car manufacturers focus the use of CO<sub>2</sub> air conditioning systems in their latest models. Share of CO<sub>2</sub> systems is constantly growing. Audi, Ford, Mercedes-Benz and Volkswagen are among main players installing CO<sub>2</sub> Airconditioning systems on their premium cars. Others are about to be added.

The highly distinctive and extraordinary technical specifications of Ecotechnics ECO<sub>2</sub>R744 attracted strongly interest and many OEM workshops have to be equipped with a new CO<sub>2</sub> A/C station. We kindly invite our distributors to speak with the people of OEM workshops to present and explain the outstanding performance of ECO<sub>2</sub>R744.

The ECO<sub>2</sub>R744 presentation and the pdf brochure download is on [www.ecotechnics.com](http://www.ecotechnics.com)
