NEW WORKSHOP NEEDS

**ECOTECHNICS**  
SIMPLY EFFICIENT

Increased awareness of environmental protection, cost-effectiveness and the efficiency that can be achieved with the properties of R744 refrigerant are further encouraging as a long-term and future-oriented solution in the premium vehicle sector.

A growing number of car manufacturers focus the use of CO2 air conditioning systems in their latest models. Share of CO2 systems is constantly growing. Audi, Ford, Mercedes-Benz and Volkswagen are among main players installing CO2 Airconditioning systems on their premium cars. Others are about to be added.

The highly distinctive and extraordinary technical specifications of Ecotechnics ECO<sub>2</sub>R744 attracted strongly interest and many OEM workshops have promptly to be equipped with a new CO2 A/C station. For sure our station is the preferred choice. We kindly invite our distributors to catch actively this opportunity and speak with the people of OEM workshops to present and explain the outstanding performance of our new station for R744 refrigerant.
