@ PERIODICAL NEWS EDITION – THE INFORMATION DRIVEN BUSINESS SUPPORT 2026 NOVEMBER

Everything's ready for the next A/C season?

Plan now your WINTER MAINTENANCE PROGRAM

Avoid wasting time with maintenance while you have to carry out the service! We recommend performing maintenance during the low A/C season in the winter.

Among most important issues of recommended maintenance services are **Software** and **Database** updates while **dryer filters** and **vacuum pump oil** substitution are mandatory. To have always reliable equipment in your workshop, please have a look on the Check-list for competent maintenance, available on-line on our homepage.

Strong market presence – a rich 2026 fair calendar

The rich events calendar 2026 provided valuable opportunities to showcase our latest solutions, present our products, strengthen relationships with distributors and industry professionals, and develop new business opportunities.
The participation confirms Snap-on's ongoing commitment to supporting its partners, increasing brand visibility, and staying close to the automotive aftermarket.

Next opportunities to meet in 2026

09. 12. 2026	France	Paris	Motorcraft - Convention Nationale 2026

Build brand awareness, strengthen market recognition

Consistent brand visibility builds trust and attracts attention

Brand visibility is essential to building brand awareness, strengthening market recognition and to attract attention. SCS always encourages it's Partners to optimize brand's visibility, trust and attraction on the occasion of sales events, trainings and presentations.
The recent wrapping of our company van is a great example of this approach, turning every journey into a moving advertisement and keep our company top of mind wherever we go.
